Thoughtful and well-rounded leader with a people first mentality. Passionate about getting to the root of problems and having a wide impact. Seeking a dynamic and impactful role

WORK EXPERIENCE

Springbuk, Indianapolis, IN

May 2018 - Present

Springbuk is a health intelligence software empowering everyone in your health ecosystem to glean actionable insights to improve your population's wellbeing and contain claims costs

Data & Analytics Manager

January 2020 - Present

- Designed and built comprehensive COVID-19 reporting in Tableau to surface the pandemic's impact on the healthcare utilization of Springbuk's 3 million lives; worked cross-functionally with data scientists and our in-house physician to continuously update reporting as the situation developed
- Responsible for troubleshooting issues, ranging from data ingestion to output, for about 15 SQL-based data sources, including communicating the issue and resolution path to technical and non-technical stakeholders
- Enabled advanced reporting capabilities for 700+ users through the management of our Tableau server by collaborating with our DevOps and Data Engineering teams to monitor performance and improve processes
- Developed new and existing standard operating procedures, including but not limited to Tableau management
- Delivered on client reporting, including requirements gathering and development

Health Analytics Manager

May 2018 - December 2019

- Delivered comprehensive Tableau reporting to multiple clients through gathering requirements, aligning with capabilities, and building reports utilizing clients' medical and rx claims data
- Developed and led Tableau training sessions for clients to enable their users to build their own reports in Tableau; designed learning and enablement materials and provided continuous guidance on best practices
- Actively participated in sales demos and prospect calls to demonstrate Springbuk's advanced reporting services; often fielded unique prospect questions requiring rapid adjustments
- Along with my manager, successfully grew a small team into a uniquely skilled, highly critical group that consistently exceeded goals of 20% new business influence by focusing on process building, strategy development and adaptation, and the hiring and training of new team members

Angie's List, Indianapolis, IN

June 2016 - April 2018

Angie's List makes it easy for homeowners to research, find and hire professionals for a wide range of household jobs

Business Analyst

- Established ongoing reporting for the sales organization to monitor and inform initiatives
- Managed recurring reports as well as fielded ad hoc requests from stakeholders
- Utilized various software to update reporting to improve automation, speed and accuracy
- Summarized data in digestible presentations for stakeholders to monitor results

Project Manager

- Ensured that new sales compensation plans were completed and implemented on schedule by maintaining a comprehensive timeline and communicating with team members about progress and the path forward
- Composed compensation documents that adhered to legal standards and effectively presented the plan
- Facilitated communication and information exchange between coworkers by coordinating meetings, creating meeting agendas, and ensuring meeting productivity

Technical Skills

- Advanced: Tableau, Microsoft Excel
- Intermediate: SQL, Salesforce

PROFESSIONAL DEVELOPMENT

Orr Fellowship, Indianapolis, IN

Orr Fellow

- Selective program that places high-performing college graduates at tech and high-growth companies in Indianapolis; chosen as one of 47 Fellows from an applicant pool of over 800
- Attended various professional development courses and built a professional network in Indianapolis

Sigma Chi Fraternity, Wabash College

President

- Aligned the needs of the national chapter, the college, and the fraternity brothers
- Increased member accountability through decentralized leadership; revived a previously dormant Executive Board to facilitate long-term adoption of this practice

EDUCATION

B.A. Economics GPA: 3.74/4.00

May 2016

Minor: Classics and Psychology (Double Minor)

Wabash College, Crawfordsville, IN

Honors: Summa Cum Laude, Phi Beta Kappa, Distinction on comprehensive exams (the highest honor for exams covering four years of study)
